

AAC PREVAIL VB CWRS

NEW FOR 2018! AAC Prevail VB is a new Midge Tolerant CWRS variety which offers producers a significant step forward in yield performance and grade retention. AAC Prevail VB consistently captures top spot for yield in zones 1 & 2 in Saskatchewan and leads performance in Alberta and western Manitoba. AAC Prevail VB has also shown good sprout tolerance and lower FHB and DON results than many MR rated lines in MCVET FHB trials. Producers can feel confident they are seeding their CWRS acres with a variety that was bred for success when they choose AAC Prevail VB.

KEY BENEFITS

- Excellent Yield
- Strong defence for yield and grade robbing factors

VARIETY FEATURES

- Highest yielding line in Saskatchewan zones 1 & 2
- One of top 4 for yield in Manitoba and Alberta trials
- Midge Tolerant
- VG Rating for sprouting
- Excellent FHB & DON results in MCVET FHB trials 2015 & 2016
- High protein retention
- Strong Rust resistance, including Ug99
