

Varietal Characteristics:

- **Growing Zone:** Suited to all pea-growing zones.
- **Yield:** Excellent
- **Maturity:** Earlier than CDC Amarillo
- **Vine length:** Longer than Agassiz
- **Lodging:** Better than Agassiz
- **Seed Size:** Intermediate
- **Seed Coat Breakage:** Better than CDC Amarillo
- **Disease Resistance:** R to powdery mildew, MS to Fusarium Wilt, MS to Mycosphaerella Blight

Technical Information:

2017 Seed Manitoba

Variety	Yield (bu/ac)	Site Years Tested	Relative Maturity	Seed Size	Lodging	Powdery Mildew	Seedcoat Breakage (%)	Relative Vine Length
AAC Carver	73	4	M	240	G	VG	G	L
AC™ Agassiz	73	47	M	230	G	VG	G	M
CDC Amarillo	73	10	M	230	VG	VG	F	M
CDC Meadow	72	60	E	220	G	VG	G	M
